

SAFEDNS

Cloud Web Filtering Service
for ISP & Telecom

A collection of decorative hexagonal icons in various shades of blue and cyan. The icons include a lightbulb, a thumbs-up, a smartphone, a magnifying glass, a gear, and a speech bubble. A large central hexagon contains the number "1".

1

Centralized security

for all your end users and networks

A vertical column of decorative hexagonal icons on the left side of the slide. From top to bottom, they include: a lightbulb, a thumbs-up, a virus, a large quotation mark, a smartphone, a magnifying glass, a gear, and a speech bubble.

SafeDNS blocked 98% of pornography sites and 68% of other harmful sites in our test. It did not have false positives.

AV-Comparatives, independent testing lab

By default, SafeDNS blocks all the categories listed under Adult Related, and almost all listed under Illegal Activity. In testing, I couldn't find any inappropriate websites that slipped past SafeDNS.

Neil Rubenking, PC Magazine

SafeDNS web filtering service is perfect for

- ◇ ISPs & Telcos

A decorative graphic in the top-left corner consisting of several overlapping hexagons in shades of blue and teal. The central hexagon is the largest and contains a white outline of a lit lightbulb.

Why SafeDNS?

2 000 000 000

DNS requests are processed daily

With SafeDNS you can offer end users

Content filter

for educational institutions and libraries

Extra protection
against phishing,
malware and
botnets

Corporate filter

enabling employers to manage, monitor and control staff online activity

Parental control

service allowing parents to protect children from inappropriate content

WiFi protection

necessary to prevent kids from visiting inappropriate resources from public WiFi networks

Our filtering process is simple

The flow of non-filtered traffic

Benefits you get

Extra protection

from online threats including those from infected end users devices

Wider range of marketing opportunities which can be very important in the often crowded market

Wider range of

products and services - an opportunity to increase ARPU and revenue in general

Fast deployment

in some cases it takes just a few hours

Additional promotion

of your brand in case you choose to white label our solution

Near zero costs

of deployment and low TCO

And more benefits

ISP's dashboard

management dashboard lets you create and delete users, introduce uniform filtering rules for all users

Competitive advantage

which will surely help you to differentiate from other internet providers

Open API

ensures you can easily manage the use of the filtering system

Regulatory compliance

achieved with fine tuning filtering rules

A decorative graphic on the left side of the slide, consisting of several overlapping hexagons in shades of blue and teal. One hexagon contains a white smiley face icon, and a larger central hexagon contains a white silhouette of a castle tower with a circular inset showing a colorful fan chart.
