

DO YOUR CUSTOMERS  
**KNOW YOUR  
WiFi IS SAFE?**  
NOW YOU CAN TELL THEM

Friendly WiFi - It's good to know.

## SHOW YOUR CUSTOMERS YOU CARE FOR THEIR ONLINE SAFETY

How can you officially prove the WiFi you offer is free from pornography and images of child sexual abuse?

How do you easily tell your customers that they, and their loved ones, are safe when using your WiFi service?

Friendly WiFi is the only certification standard which proves your public WiFi service is filtered for inappropriate content.

The standard was created in partnership with the UK Government and The UK Council for Child Internet Safety (UKCCIS).

Becoming a Friendly WiFi approved venue or location is easy and allows you to display the symbol. The symbol tells your visitors you care for their safety.

Friendly WiFi – **it's good to know.**

### Why Friendly WiFi?

- Annual check on your WiFi Safety
- Use of the Safe WiFi symbol at your venue, location or on your WiFi page
- Demonstrates Corporate Social Responsibility
- Your business listed on the Friendly WiFi online directory
- Online predators deterred
- Provides your users a safe WiFi experience
